FALL
DISCOUNTS

LIBRARY
U.S. Dept. of Agriculture
Washington 25, D.C.

Gentlemen:

We offer our Fall price list in solicitation of your orders. Our long experience in growing and shipping lining out stock assures you the best at reasonable prices.

As we are desirous of increasing Fall Sales we offer these money saving discounts for all orders shipped this Fall. Plant now and increase your net profits.

On orders of	Deduct
\$ 50.00 to 99.00	2½%
100.00 to 249.00	5%
250.00 to 499.99	7½%
500.00 up	10%

On pages 7 & 8 you will find some stock for Spring shipment. Stock listed in other parts of this list will not be reserved for Spring shipment unless payment in full accompanies the order.

If you have any friends who are fellow tradesmen or if you yourself would like additional copies of this list just drop us a card.

Very truly yours

JOHN VERMEULEN & SON, Inc.

calendulacea, yellow	3yr XX	6-10"	.45	—
hakata rubra—June blooming salmon flowers. Slow and low growing habit. Excellent for rock gardens.	B&B	8-10"	1.25	—

HINO-CRIMSON—Consistently gaining in popularity. Flowers are a clear-crimson-red and make a striking contrast to the glossy, dark green foliage. More important however, they do not fade as do the hinodegiri and hold the clear color until finished blooming. Excellent for forcing because of this characteristic. Also hardier than hinodgeri. Color print sent upon request.

FRANKLINIA

alatamaha	3" pot	9-12"	.50	
	3" pot	12-15"	.60	.50

HAMAMELIS—Commonly called Witchhazel. The hybrid grafts below are appealing improvements over the common virginiana or vernalis. The flowers are much larger and of brighter color. These flowering shrubs give an abundance of pleasure to everyone from the rank amateur gardener to the learned botonist for they burst into bloom in the middle of the winter when the sun shines warmly and continue to bloom for several weeks. Deciduous. Fragrant.

japonica flavo-purpurescens—slower growing with yellow, red tinged flowers with red calyx.

1yr gr .3" p	10-12"	1.00	.85
--------------	--------	------	-----

japonica zuccariniana—lemon yellow flowers. Faster grower than flavo-purpurescens.

1yr gr 3" p	10-12"	1.00	.85
2yr gr .4" p	12-15"	1.50	—

mollis—the best of the witchhazels. It has beautifully graceful golden yellow flowers. Grows faster than japonica and blooms a bit earlier.

1yr gr 3" p	10-12"	1.00	.85
-------------	--------	------	-----

ILEX

crenata	1yr 2 1/4" pot	6- 8"	.22	.18
---------	----------------	-------	-----	-----

crenata convexa—Also known as bullata and buxifolia. Its hardiness and compact growth make it a fine plant for formal hedges in place of boxwood. It is also used extensively for foundation plantings and makes fine specimens. Does well in shade. Evergreen.

2yr 2 1/4" pot	6-10"	.27	.22 1/2
----------------	-------	-----	---------

crenata latifolia—long wide evergreen leaves. Strong excellent grower. Hardy.

TAXUS—The Yew will long be the favorite evergreen of the American people. Its versatility and many varieties assure this. We offer below a good selection of liners. You will note that some items are marked. Those marked with an asterisk * are all located in a block that we are anxious to clean out entirely. If you are interested in large quantity, we will be pleased to make an attractive quotation. Also see Ret. and Thuja. The others marked † are plants rooted Winter of 1946, planted early summer of 1947. They have excellent roots and healthy vigorous tops, though some may be a bit light.

Sentinalis Pilaris Pyramidalis Stricta

TALL NARROW HARDY

For many years the nursery trade has been looking for a hardy yew that is narrow and compact yet having a normal rate of growth. They are sorely needed for confined plantings, formal hedges and gardens, apartment house and store plantings, and a score of other uses where juniper and thuja are not practical or wanted. With these ends in mind 30 *Taxus media* seedlings were chosen in 1932 for testing. In 1946 after 14 years of testing for hardness, growth habit, color, freeness of disease, propagation ease and sales appeal four types were offered for the first time. In 1947 three others were offered. All in small sizes. This year we offer some larger sizes and soon will have B&B. Almost everyone who has seen our stock plants has commented very favorably on them. Everything points to a future public demand.

TAXUS MEDIA PILARIS—Pillar Yew a

Narrow habit about mid-way between Pyramidalis and Sentinalis. Needles are gracefully long and narrow and medium dark. Branches slope upward and are short.

TAXUS MEDIA GRANDIFOLIA—Bigleaf Yew a&b

Similar in shape and growth to Pilaris but with very much longer needles. The effect is rich and unusual.

TAXUS MEDIA PYRAMIDALIS—Pyramidal Yew a, b, c, d & e

A strong grower with verticle branches and striking black-green needles. Truly a rich, showy, fullbushd column.

TAXUS MEDIA ROBUSTA—Obelisk Yew a, b, c, d, e, & f.

Similar to pyramidalis in growth but heavier branched, giving a more sturdy or robust appearance. Large glossy needles.

TAXUS MEDIA SENTINALIS—Sentinel Yew b

The most surprising of all. Sufficiently clothed with short foliage and branches to cover the main stem.

TAXUS MEDIA STRICTA—Narrowbush Yew a, b, c, d&e

Narrow and a bit dwarfish which along with short thin needles give a compact effect. Branches almost verticle.

TAXUS MEDIA VERIDIS—Grassgreen Yew a, b, c, d, & e

Long, gay, bright needles both Winter and Summer. A faster grower than the rest with almost verticle branches. We think it is one of the best.

		5-9	10-24	25-up
Key	a. 1yr 2 1/4" pot	.40	.30	.25
	b. 8-12" 3" pot	.75	.60	.50

TERMS AND CONDITIONS

PRICES: Prices quoted herein cancel those in all previous lists and are subject to change without notice. They apply only to bona fide nurserymen, florists, landscapemen, etc. Please use printed stationery or enclose business card when ordering. Add 20% of total to orders of \$5.00 or under and 10% to orders of \$10.00 or under.

TERMS: Cash with order or 50% cash with order, balance plus packing charges C.O.D. No packing charge on fully prepaid orders. No cash discounts. To those who have established credit terms are net 10 days.

NOTICE: All stock is subject to prior sale. Orders will be accepted only on condition that they may be voided due to crop failure, inclement weather, drought, fire, frost, strike, etc.
